

# Information for International Students

The University of Arizona College of Medicine does **NOT** allow international students to enroll in our courses. However, if a student is well-known by one of our faculty members and that faculty wishes to directly supervise the student in an education activity here, then the faculty member may apply to the Dean of the College of Medicine for permission to sponsor the student. If an international student does not have such a relationship with one of our faculty members, we will not consider their request.

**Please send an email to: [visiting@email.arizona.edu](mailto:visiting@email.arizona.edu) indicating the name of your UA faculty sponsor and department. Upon receipt of this information we will send an application to the address you provide.**
